CHAPTER _____

An act to add Section 3724.32 to the Public Resources Code, relating to public resources.

LEGISLATIVE COUNSEL'S DIGEST

SB 571, Maldonado. Geothermal resources.

Existing law imposes a civil penalty on an oil or gas well operator when a violation of geothermal regulations has occurred. Existing law requires the State Oil and Gas Supervisor to investigate complaints against a well and, when necessary, to issue an order to the well operator stating the work required to repair the damage complained of. Existing law also requires the supervisor to establish an annual well fee, and penalties for late payment.

This bill would authorize the supervisor to deny approval of proposed well operations until the operator pays the civil penalty, complies with the order, or pays the required well fee.

The people of the State of California do enact as follows:

SECTION 1. Section 3724.32 is added to the Public Resources Code, to read:

3724.32. When an operator fails to pay a civil penalty imposed pursuant to Section 3754.5, comply with an order of the supervisor issued pursuant to this chapter, or pay a charge assessed under Section 3724.5, the supervisor may deny approval of the operator's proposed well operations until the operator pays the civil penalty, complies with the order of the supervisor, or pays the charge assessed under Section 3724.5.
